Arrival Pavilion/

Location The stunning 5-star island of SO/ Maldives is designed to be explored. Located in 15-minute speedboat ride from Malé International Airport whisks you away to a private island in this idyllic archipelago overlooking the Emboodhoo Emboodhoo Lagoon home to diverse marine life (shark, ray, and dolphin & coral with and part of CROSSROADS Maldives, the first integrated lifestyle and leisure destination in the Maldives – a place Where Culture Meets, seamlessly blends a stylish Riviera chic into idyllic tropical paradise, from dining to leisure, fashion and entertainment. Introducing a new generation of luxury for modern adventurers.

THE CITRONELLE CLUB

The Citronelle Club is a welcoming restaurant inspired by the flavours of Asia, the guest profile here being foodies that love full-flavoured dishes to share in large parties. The kitchens are the main event and the finishes used are to be rustic Asian inspired bricks, tiles and timber panelling.

This is a food-driven concept, a dining experience which is all about the preparation and journey. The Citronelle Club cuisine tells a sensory story with exposed cooking pots and pans, the sound of wok fires, noodle dough beating and the chopping of fresh salads and cooked meats, as well as pots of strong, spicy soups and lightly fried vegetables.

Drinks will borrow ingredients from the kitchen with herbaceous and fresh cocktails and fruit beverages and crisp light wines designed to pair with the spicy flavours.

Lazuli

BEACH CLUB

Lazuli is a versatile space oozing Cote D'Azur charm and elegance. A centralised bar connects the areas and, as the guests journey away from the Bar and Lounge, the experience becomes more informal, more lively and more interactive. Lazuli has multiple terraces, decks and bars as well sun beds both in and out of water.

The bar area will be the central element with a selection of fruity and brightly coloured cocktails served in giant pitchers fit for large groups of friends. Music will be provided by a rotating selection of local and global DJs to ensure the mood is always upbeat attracts a broader crowd

hadaba

A feast of the Middle East unlike any other. Where old and new friends can come together to break bread, share a drink, and trade stories; where the familiarity of the cuisine is elevated by the unexpected. Hadaba takes its name from the Egyptian neighbourhood - Hadaba, one of the regions across the Levant the restaurant draws its flavour and inspiration.

The restaurant sits at the coastal tip of the SO Maldives resort, split over two floors, with a central staircase drawing the main focus in the room with a majestic backdrop of the Maldives in the background.

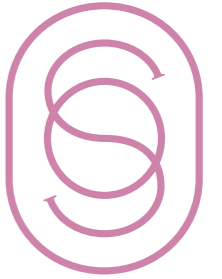

The flavour and origins of the food will be an integral part of the experience, from slow-cooked dishes to smoked delicacies, using both local produce combined with the finest Levant ingredients and spices

Making a Positive Impact

ECO LABELS

Bathroom amenities: Our luxury bathroom products by Codage uses vegan formulas made in France from natural and sustainably sourced ingredients, in recyclable packaging.

In-room Dry Amenities: Villa amenities are all green from room slippers down to toothpaste and packing. We have partnered with the innovators at Palatino whose products are 100% compostable and composed of bamboo, FSC wood, cornstarch, PLA and cotton. Packaging is made with FSC paper and printed with ecological ink. To complete the range, Palatino created the first eco-friendly toothpaste and eco-friendly slippers composed of 100% natural materials - organic cotton, FSC paper and cork a dedicated machine

FOOD SUSTAINABILITY

No to Food Waste: Leftover foods are composted with a dedicated machine.

Locally sourced ingredients are available in all restaurant and bar menus. From lobster, tuna, octopus and other seafood to the range of vegetables, fruits and coconut, ingredients are bought from local vendors in the Maldives.

No to full-buffet approach.

CARBON

We generate 40% of our resort's energy from solar panels installed in the Back of the House, Water Villa Collections, and restaurants, showcasing our commitment to renewable energy and sustainability.

Usage of recycled waste water for irrigation

Production of hot water from our generator and circulate around the island. This includes back of house, guest villas & public areas.

Monitoring and optimising air conditioning, lights and villa occupancy via in-guest villas' GRMS software.

Environmentally Friendly Vehicles. We use electric buggies for in-land transfers.

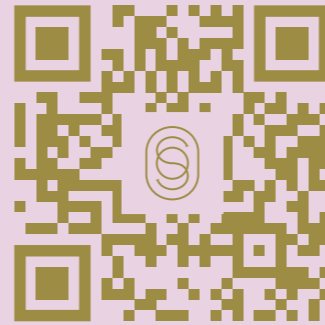

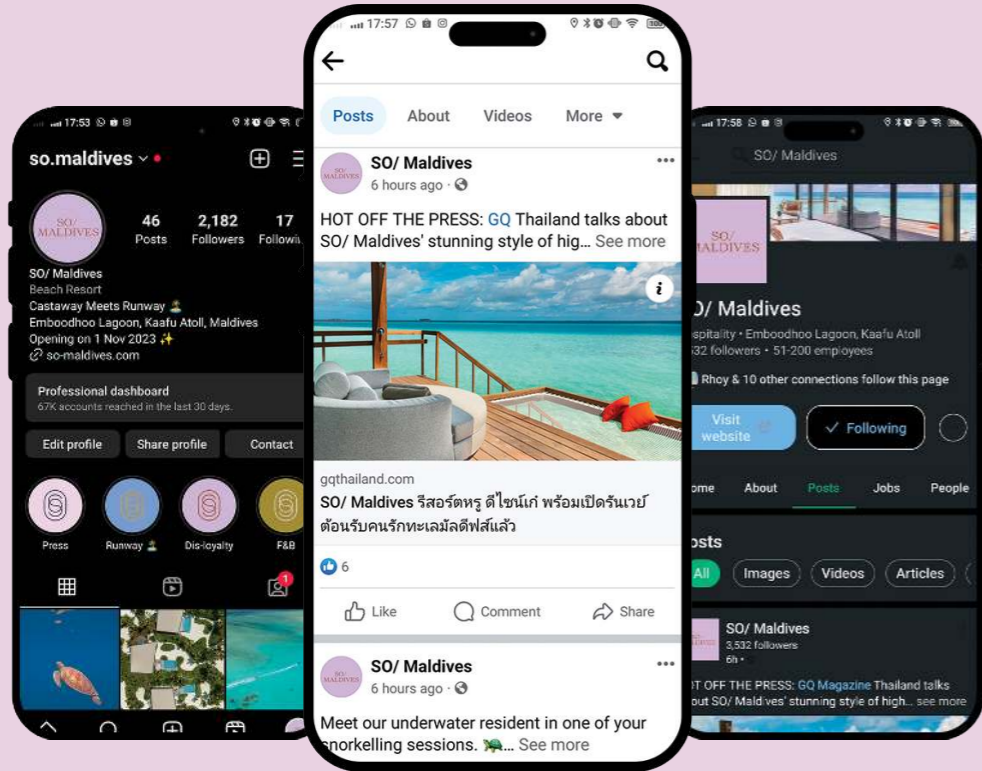

PLASTICS

Elimination of single-use plastics.
