## Cloud Forest Lodge

- We are located within the Bellbird Biological Corridor, two kilometers from the main town of Santa Elena; between the Monteverde Reserve and the Santa Elena Reserve.
- We have 25 rooms. All of them have a private porch with a view of our gardens and part of the surrounding forest.
- All rooms have free wireless internet.
- Our rooms do not have air conditioning nor television, to provide you with the opportunity of connecting better with nature.
- Peace and harmony are a guarantee for you.
- Our service is caring, informal and personal. Our goal is to make you feel at home.
- Our restaurant (Endémica) receives its name based on the idea of endemic food. The majority of the food is traditional Costa Rican but served in a gourmet way. Everything is prepared in the hotel and served with love.
- The atmosphere at the lodge is peaceful and allows you to connect with nature.
- Our bar serves up nice cocktails that you can enjoy from our different terraces with views of the Nicoya gulf or of the forest.
- We have a nice warm firepit located in the heart of our restaurant where you can enjoy a nice drink, snack or your favorite book.
- We recommend hiking in our private reserve. Inside our reserve you can enjoy 4 Km of trails, guided night walks, and the Original Canopy Tour (ziplining). This was the first canopy built in the world around 1994.
- Our suggestion would be to stay at our lodge for a minimum of 2 or more nights in order to enjoy and live the beautiful Monteverde experience.
