The Den  
Where Young Minds Run Wild

## The Den at Soneva Jani

Inspired by childhood wonder, The Den is an awe-inspiring, technology-free playground for the imagination. With dedicated toddler and teenage areas, it offers a series of inimitable and interactive experiences specially designed to delight and entertain children of all ages.

Introducing young guests to the resort's pioneering SLOW LIFE philosophy and in line with Soneva's 'No News, No Shoes' ethos, all phones and tablets are required to be left in the villas before coming to The Den, encouraging them to learn, play, discover nature and let their creativity and curiosity run wild.

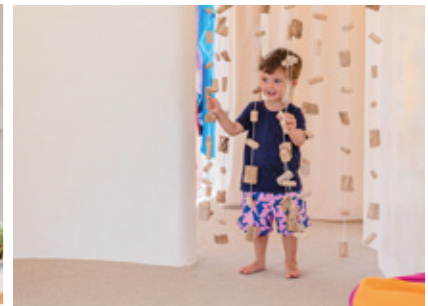

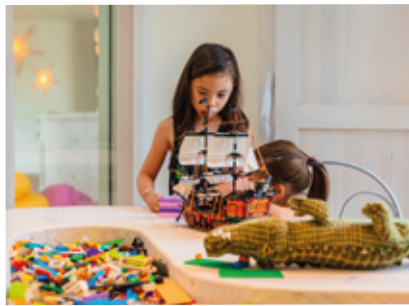

## The Den Facts

- The Den at Soneva Jani is a 1,500 sqm, two-storey structure, making it the largest family zone in Southeast Asia.
- A 32-metre zipline crosses the swimming pool's pristine blue waters and makes a splash as it traverses through a waterfall.
- Piano-inspired keys embedded in the wooden floors playfully trigger four underwater-themed musical compositions: Musical Sealife, Underwater Organ, Dance of the Waves, and Maldivian Maestro.
- A separate area is dedicated to sensory play for toddlers.
- The Hangout on the second floor and the Cave Bar on the ground floor are both dedicated to teenagers.
- Children's voices are live transcoded to 'fish talk' for next-level science fun with the Tale of the Whale.

“The Den was a truly wondrous and interactive space which had a variety of activities catered to different age groups. While my son was preoccupied with toys and arts and crafts, I was keeping myself entertained with other activities. On top of that, it is a great place to unplug and relax. My family had such a fun time inside that we momentarily forgot about the rest of the world. Would highly recommend families to visit the space.”

“It's simply the best. Our teens absolutely loved The Den and our 8-year-old wanted to spend her whole vacation there. I loved the fact that everything was so hands-on and interactive for the older kids, rather than just a bunch of TVs and video games.”
