

Soneva

INSPIRING A LIFETIME OF RARE EXPERIENCES

*no news
no shoes
no masks...*

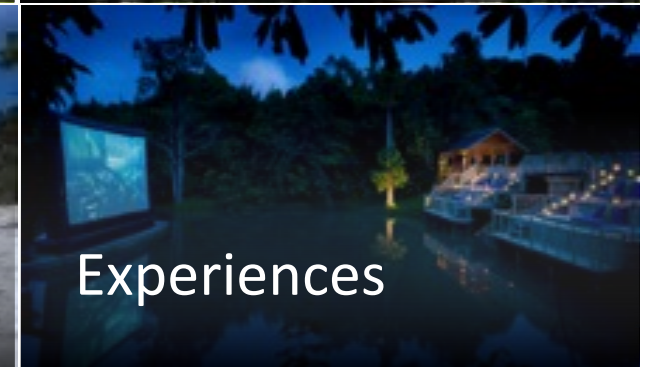

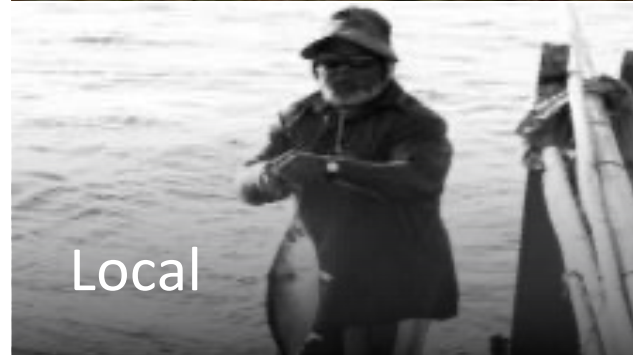

At Soneva, our creativity is driven by our guiding principle of 'Intelligent Luxury', which is about understanding what true luxury is for our guests; many of which spend most of their time in urban environments.

With our team, we continue to question and challenge what is rare, and hence a real luxury. We have curated the following rare and authentic experiences to help create precious, life-enriching stories and memories.

CORE PURPOSE

“We create imaginative and
engaging
SLOW LIFE.”

Our guiding principle is
to create “intelligent
luxury” by combining
luxury and sustainability.

Experiences

Time poor, we all seek real and authentic experiences to create precious, life-enriching stories and memories.

An aerial photograph of a tropical resort. In the foreground, a large, modern building with a dark, grid-patterned roof is visible. To its left is a large, covered tennis court with a green roof. In the center, a smaller, open-air paddle tennis court is situated. The resort is surrounded by dense tropical vegetation, including many palm trees. In the background, there are several traditional thatched-roof huts. The ocean is visible in the top right corner, showing a clear blue lagoon. The text "Covered Tennis court and Paddle Tennis" is overlaid in the center of the image.

The Den

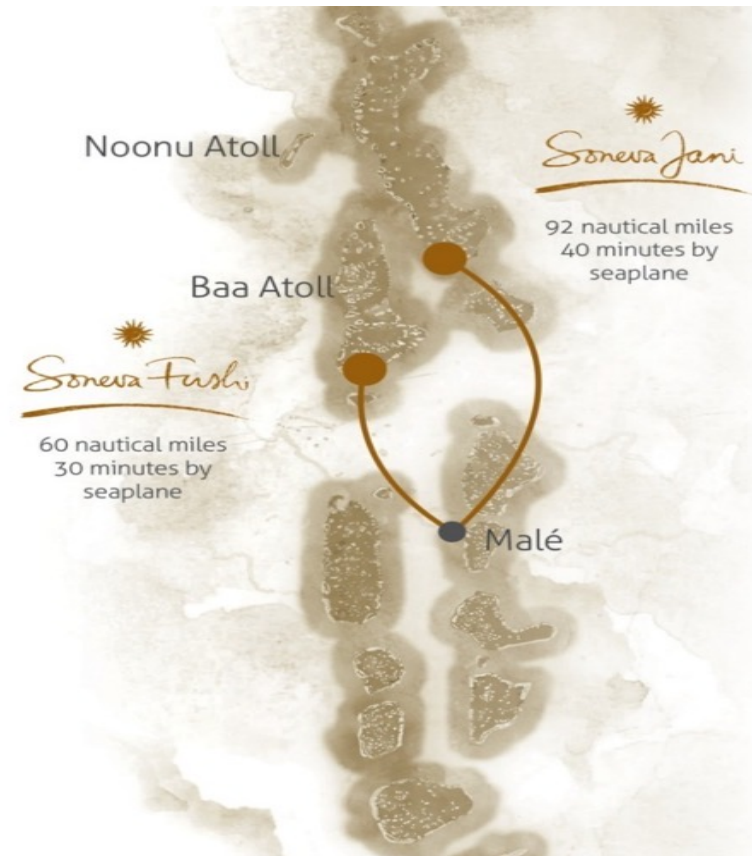

Soneva Jani

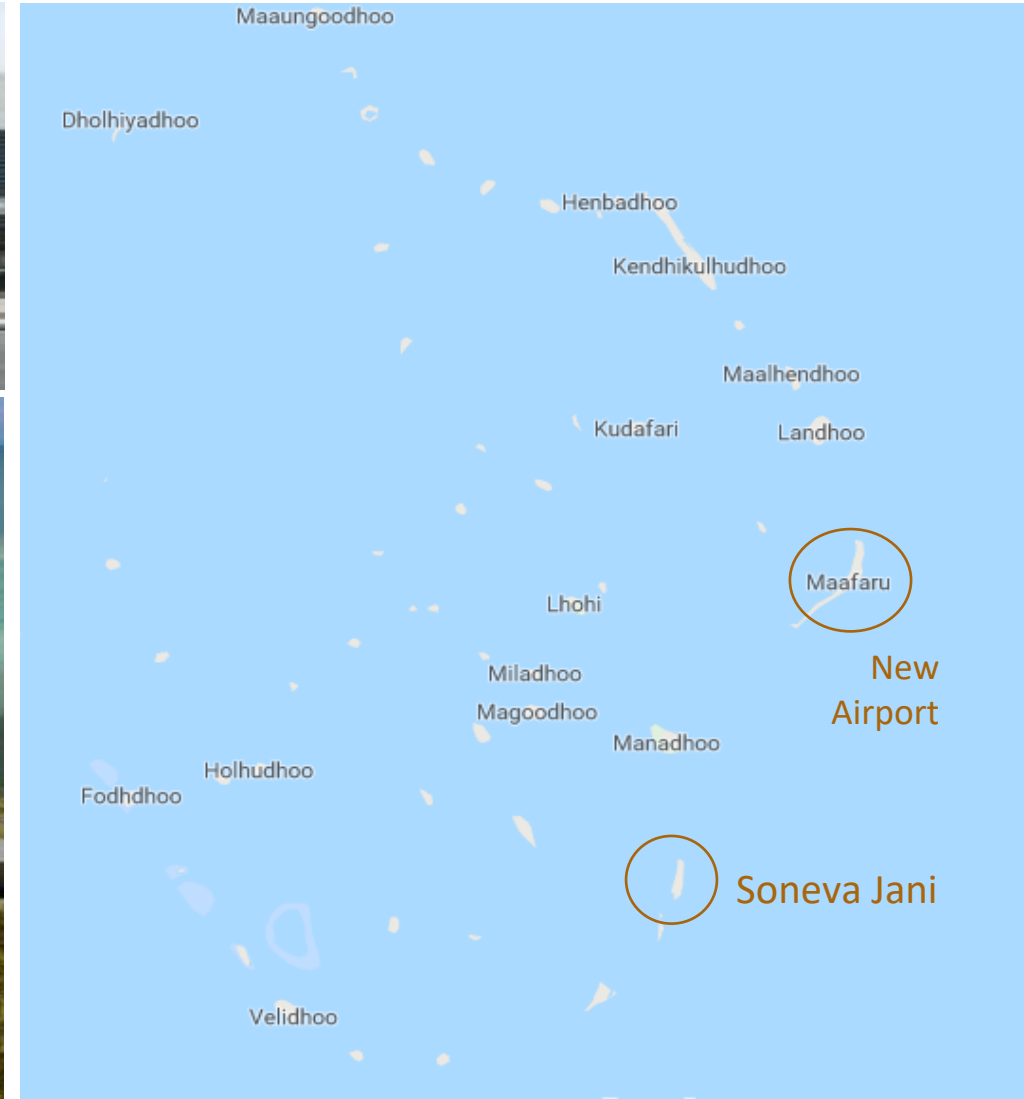

Built in a private crystal clear lagoon with two island villas and 24 water villas with uninterrupted ocean views, Soneva Jani is surrounded by pure white beaches and lush tropical greenery. Offering a unique castaway experience with whimsical waterslides, the beautifully designed villas offer the ultimate in privacy and laid back luxury.

Experiences

Soneva in Aqua

Complimentary Experiences

Guided snorkeling

From swimming with turtles to exploring unique coral formations, the crew know exactly where to take you snorkelling depending on the marine life you are most interested in seeing.

Dolphin Watching

The dolphins love playing in the bow wave created by Soneva In Aqua. Lie comfortably in the hammock nets specifically designed for having a bird's eye view of this amazing show.

Massage

Included every day is a complimentary 1-hour massage treatment for each guest offered by our professionally trained onboard massage therapist.

Yoga

Our massage therapist is also an experienced yoga instructor. Guests can enjoy a personalised or group yoga session on the foredeck or on one of the deserted islands and sandbanks.

Kayaking

Kayaking is the perfect way for a family to explore a deserted island or sandbank directly from the yacht. Even to just enjoy a leisurely kayak over the pristine reef, spotting rays and other marine life through the crystal-clear waters as you pass directly overhead.

Stand Up Paddle boarding

Paddle boarding is another alternative to getting some exercise and having fun while paddling over the turquoise waters. Catching small waves off the sandbank can also be a fun and rewarding experience.

Windsurfing

If it's too windy for kayaking or paddle boarding, we can get out the windsurfing equipment and you can jump in the water and use the power of the wind to explore the lagoon.

Night Snorkeling

Experience the nocturnal energy of the coral reef come to life while night snorkelling with our experienced guide.

Dolphin Glider

Feel what it's like to glide above the reef like a dolphin with our custom-built Dolphin Glider. See the inquisitive marine life come within touching distance as you fly effortlessly through the water.

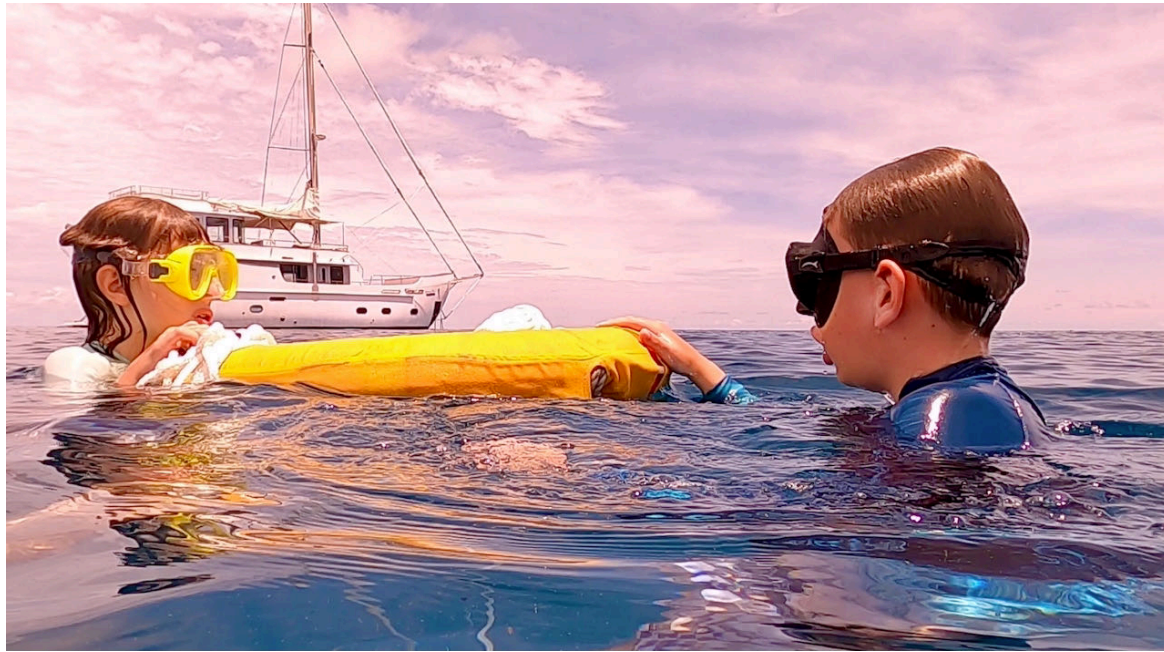

Boom Swing

Experience the thrill of somersaulting off the boom into the ocean below, or for the more reserved, simply relax just above or in the water.

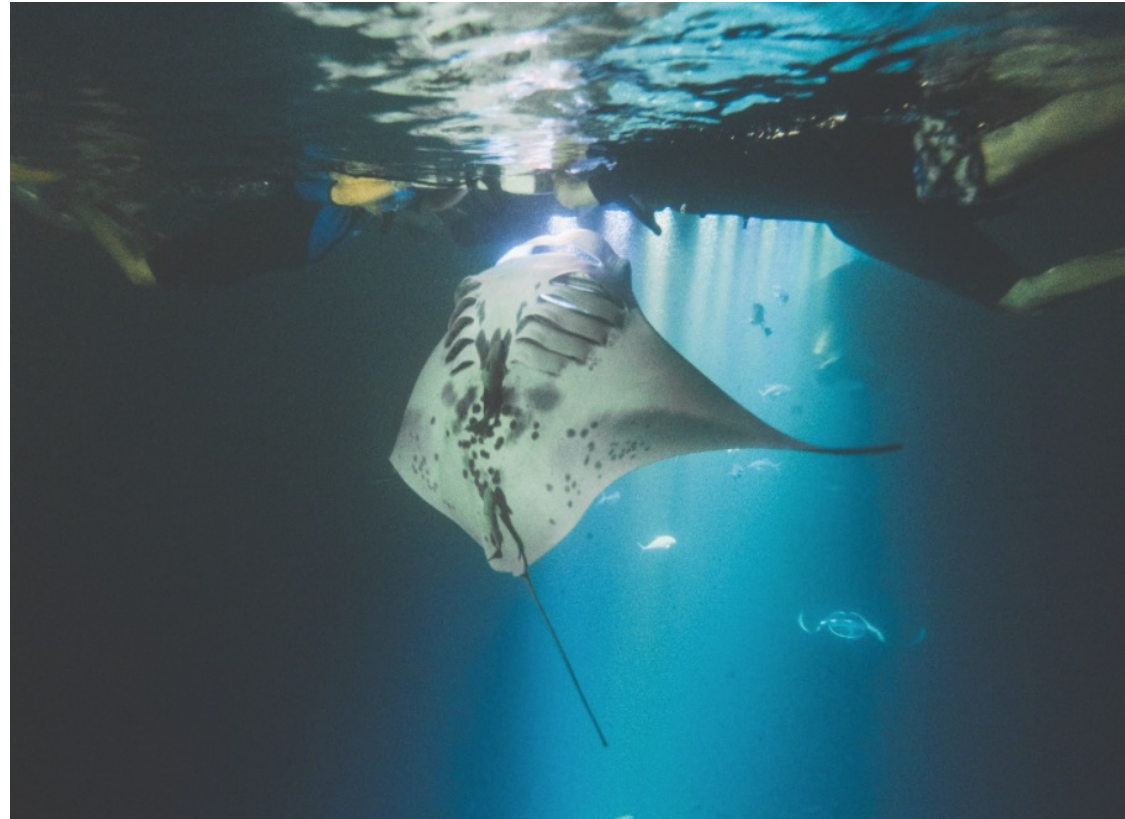

Free Diving

Free diving has become very popular. Learn techniques of how to extend your bottom time on one breath and then put that knowledge into practice with the guided support of our certified free-diver.

Night snorkeling with Manta Rays

Ever gone night snorkeling...with Manta Rays?! We often have Manta Rays cruising around our anchorage in Goidhoo lagoon. Jump overboard and let the lights from the yacht illuminate these gentle giants as you glide along side them.

Deserted Island and sandbank set-ups

We offer guests deserted island and private sandbank setups for special occasions and romantic settings. Offering simple castaway picnic lunches to a four-course bespoke dinners, all freshly prepared on location by our talented chef.

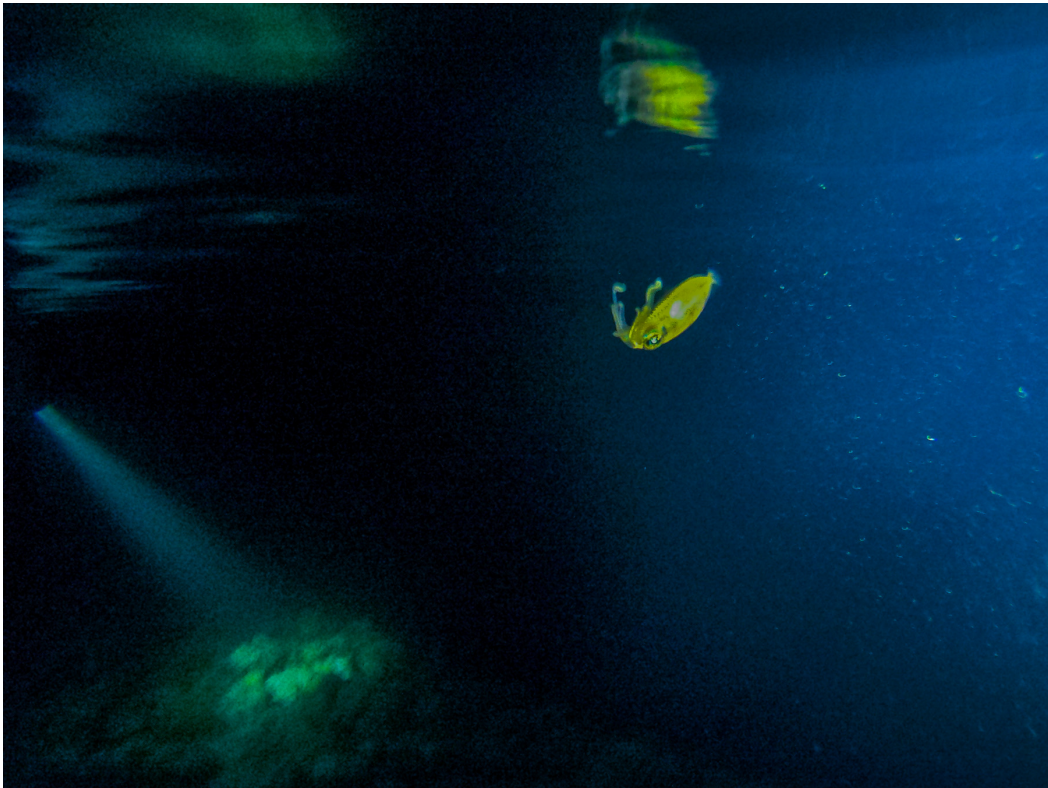

Swimming in bioluminescent plankton

Want to feel like Peter Pan flying through a magical night's sky leaving only a trail of stars? Jump into the ocean on a moonless night when bioluminescent plankton are in full bloom and fly away with us to Never-Never Land. (Pictures can't do this experience any justice)

Jigging for Chokka

Catch squid off the transom with specially designed jigs at night. Enjoy freshly prepared squid dish served with pasta, stained black from the ink of the squid.

Personalized photographer

At no extra charge, we offer a personalized photography service to capture those rare moments experienced both underwater with our abundant marine life or onboard having fun. These videos and pictures are then edited and transferred to your personal device before departure.

Soneva in Aqua

Charged Experiences

May 2021

Scuba Diving

Soneva In Aqua is the perfect platform to explore the best dive locations in the Maldives. Let our experienced instructor guide you the hidden reefs found in remote locations. We have all the equipment in your size as well as a dive compressor onboard the yacht.

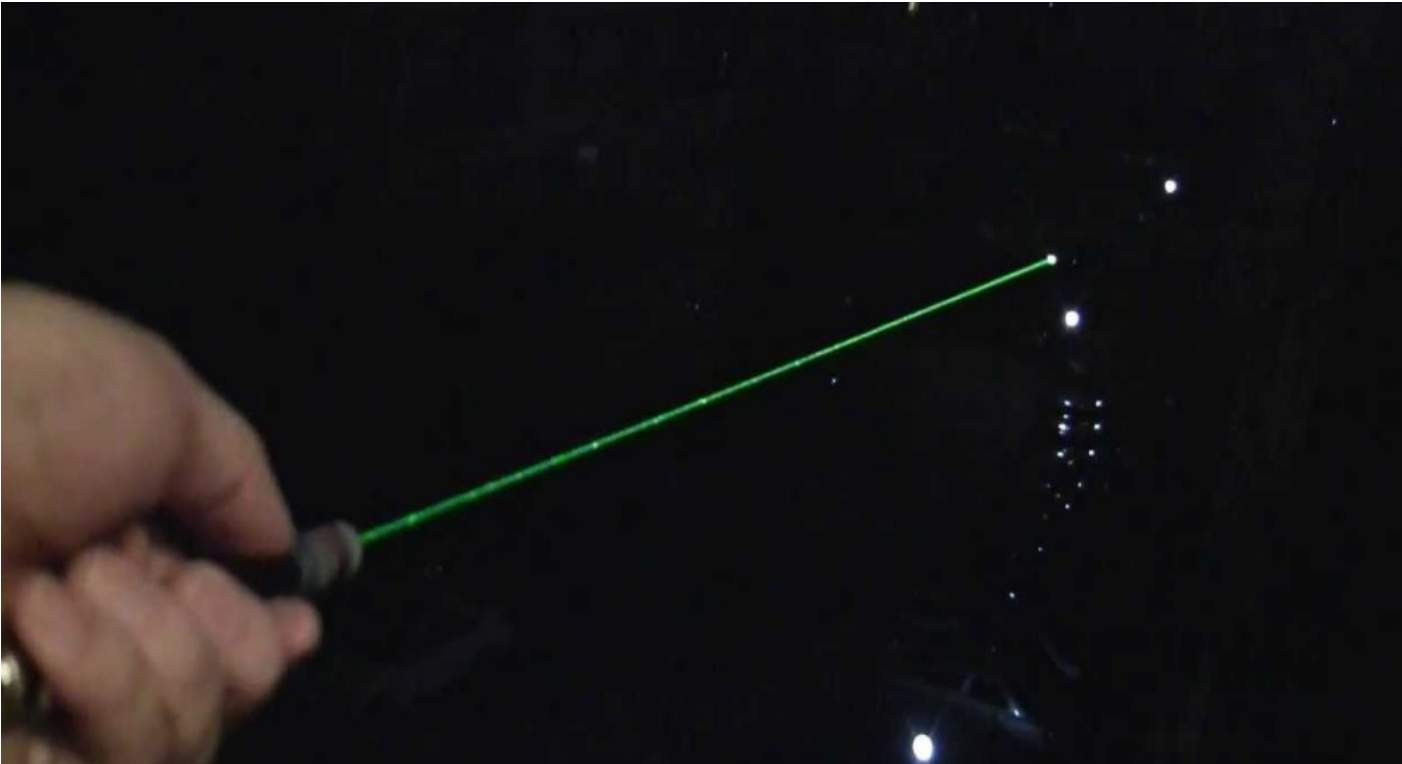

Surfing

Let our onboard surf instructor take you to the best waves in the area based on your skill level and interests. We have a large selection of boards to suit any level of surfer and type of wave. The surf in the BAA atoll especially between June and September is super fun, glassy and always uncrowded- a combination of factors that makes for a perfect surfing holiday, especially in a tropical destination.

Astronomical dinner cruise

We can have our in-house astronomer come onboard just after dinner and explain some of the wonders we see in the nights sky directly from the decks of the yacht.

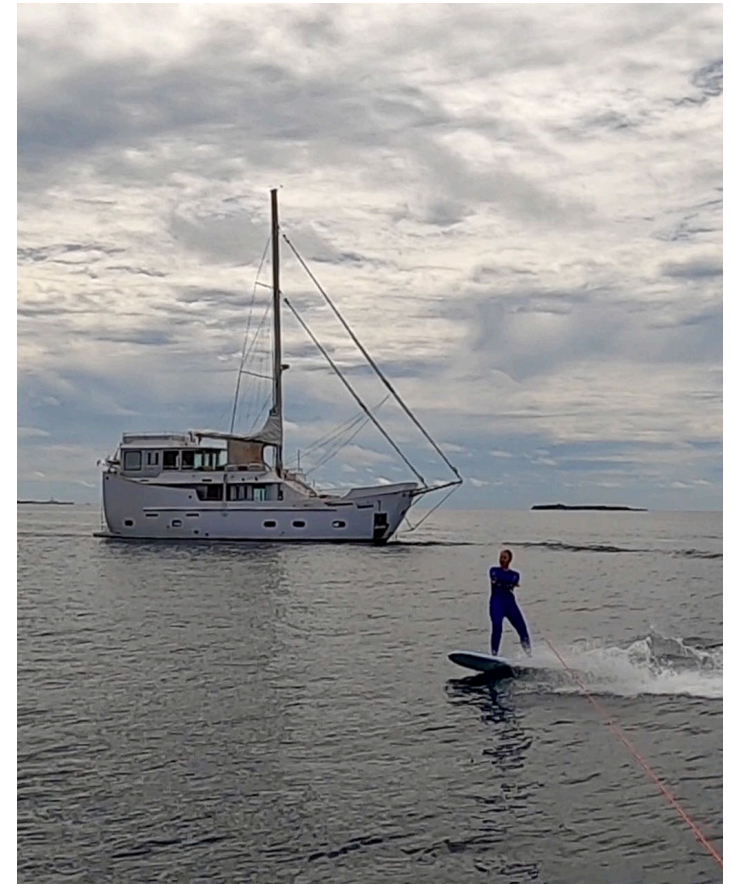

SEABOB

Dive below the surface of the water and cruise alongside the coral reef with our SEABOB.

Skurfing

For the days when there is no surf, grab a short board and have fun on the wake created by the tender while being pulled behind at slow speeds.

Wake Skating

Wake skating is like skurfing, except we create a bigger wake by adding a little ballast in the back of the tender and the tow rope is shorter. Guests can even let go of the rope and “surf” the wake.

Fun Tubing

We have two fun tubes onboard which have proved to be very popular with the youngsters who get great enjoyment out of bouncing over the wake and bumping into each other.

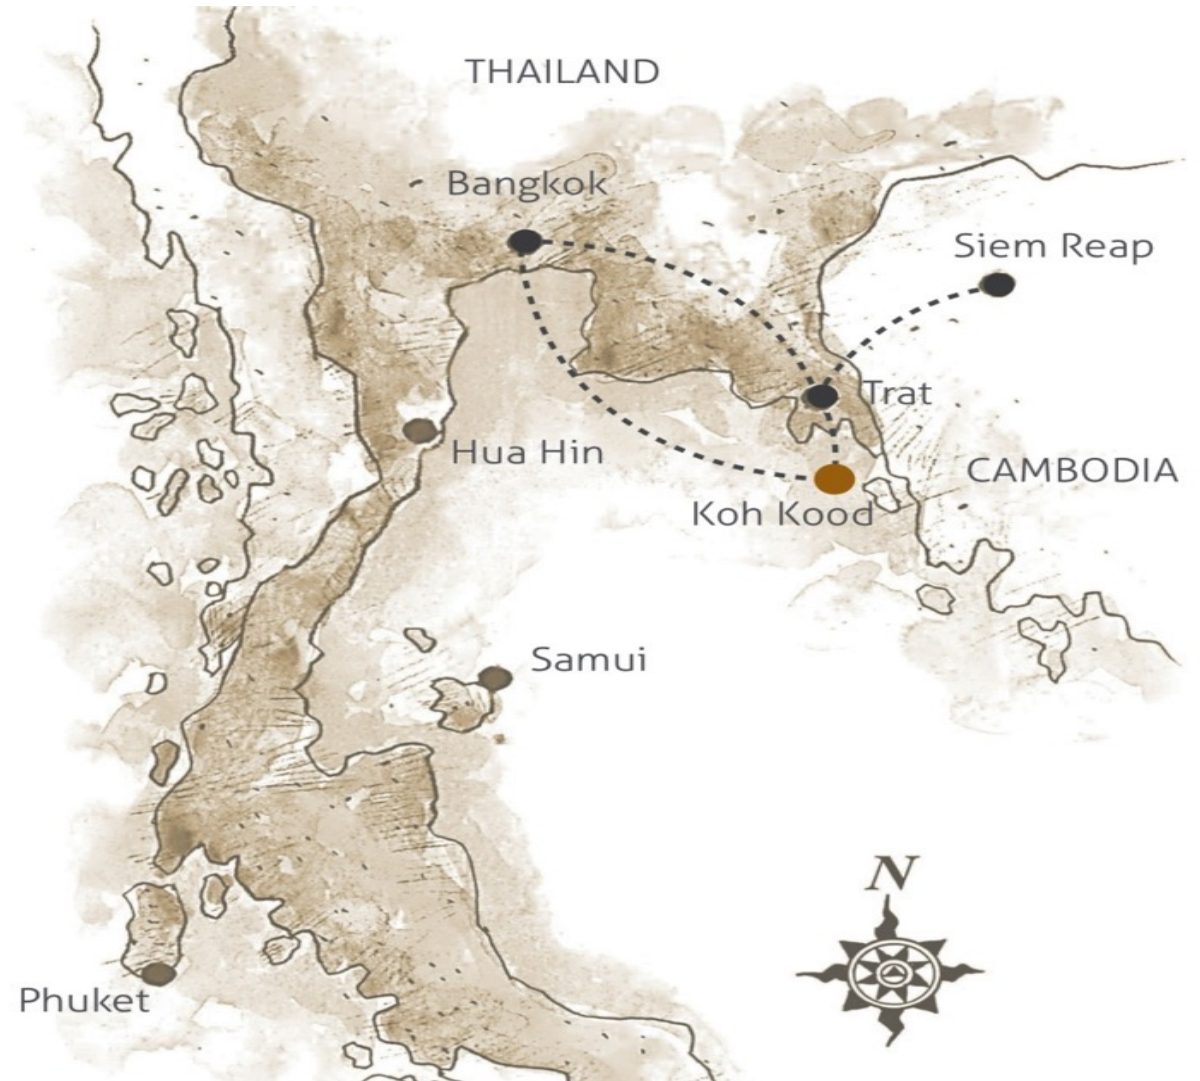

Soneva Kiri

Soneva Kiri

Located in a lush tropical rainforest, on an unspoiled island with some of the best beaches in Thailand, Soneva Kiri offers an unparalleled blend of luxury, eco-friendly design and a unique Thai experience. This extraordinary island hideaway features beautifully designed interiors and comprises 34 expansive one to six bedroom villas that blend seamlessly with the island's natural beauty.

Soneva Kiri South Beach

A tropical beach restaurant at sunset. The scene is set on a sandy beach with several wooden tables and chairs with green cushions. In the foreground, a table is set with yellow napkins and lanterns. In the background, a large palm tree stands prominently, and the ocean meets a sky with soft, colorful clouds. A few people are visible in the distance, and a forested hill is visible on the right. The overall atmosphere is serene and romantic.

What Makes **Soneva** Different?

Soneva

NAMOONA

Pilot project launched in 2019 with three island councils, Soneva and Common Seas to demonstrate a working model for sustainable waste management in small island communities. Today, Soneva Namoons is a registered NGO working with 21 islands across the Maldives and growing.

With our holistic approach to the complex issues of waste management, waste is segregated and processed so that burning sites can become healthy recreational spaces once again

REDUCE

Encouraging alternatives to single use plastics

- Soneva Water bottling plant on Maalhos - AVOIDED over a quarter of a million SUP bottles! Constructing second plant in Noonu.
- Setting up a Resale Market in Baa Atoll
- Conducting household water filter trials
- Conducting reusable nappies and menstrual products awareness sessions, trials, and plan to run a business incubator project for alternatives to SUPs

RECYCLE

Co-creating zero waste solutions for every island

- Working with 11 islands on improving waste management systems, and with the Noonu Atoll council at an atoll level
- Received funding from CCBO USAID
- Upgrading waste management centre in Makunnudhoo to an Eco Centro with a jetty
- Presented our Namoonu Sustainable Waste Management Model to 32 Nations at the Environmental Security Forum in Male in August.

INSPIRE

Nurturing communities of environmental stewards

- Trained 26 Swimming and Water Rescue Instructors as part of the Shore to Open Water Series
 - Over 450 students have improved their swimming skills in the past 12 months
- In partnership with the Ministry of Education, and we are piloting a “Green Schools” program with seven schools
 - a whole school approach to increasing eco-literacy, decreasing waste and promoting climate prosperity
- We facilitate capacity building workshops:
 - Zero Waste Champions and Zero Waste Educator, Facilitator Skills, Personal Leadership and many other workshops have been implemented
